

SureVue Meeting Room Panels

Our meeting room panels are designed to be part of enterprise-wide initiatives.

We offer 10- and 15-inch touch panels with integrated PC players that deliver superior video quality.

SureVue meeting room panels combine the flexibility of a PC with the ease of use and reliability of a dedicated appliance. The SureVue Operating Platform supports Linux and Windows IoT operating systems, support industry-leading content management systems, and feature highly-optimized system software.
